

Jorge E. Betancourt

Park Ridge, IL | 754-308-7058 | jebetancourt@outlook.com | Authorized to work in the U. S.

Senior AI Engineer | Data Scientist | MLOps | Generative AI | Mechanical and Industrial Engineering

PROFESSIONAL SUMMARY

Senior AI and Analytics professional with 15+ years of experience delivering enterprise AI, Machine Learning, and data-driven solutions across healthcare, manufacturing, logistics, and consulting. Proven expertise in Generative AI, MLOps, and cloud platforms (AWS/Azure). Strong track record building production ML systems, optimizing data pipelines, and training professionals in AI engineering.

CORE SKILLS

AI/ML & GenAI: Machine Learning, Deep Learning, NLP, Transformers, RAG, LLM Fine-tuning (LoRA, RLHF)

MLOps: MLflow, Docker, CI/CD, REST APIs, FastAPI

Data: Python, SQL, R, Pandas, Scikit-learn, Power BI

Cloud: AWS (Athena, S3), Azure ML, GCP

Tools: TensorFlow, PyTorch, LangChain, FAISS, Databricks

Engineering: Mechanical and Industrial Engineering, experience and principles applied to AI and industry.

PROFESSIONAL EXPERIENCE

Senior AI Trainer & AI Engineer | SkillUp Online (2024–Present), Remote - USA

- Delivered AI training programs for multiple cohorts transitioning into AI/ML roles
- Designed full-stack AI curriculum including ML, Deep Learning, NLP, and Generative AI
- Taught deployment using Docker, MLflow, APIs, and CI/CD pipelines
- Led instruction on LLMs, RAG pipelines, and AI agents
- Led instruction on Data Analytics: Advanced Excel, PowerBI, SQL and Python

Learning & AI Consultant | Analytikus LLC (2018–Present), Miami, USA

- Delivered AI/ML and BI consulting (Power BI) and training for enterprises and universities
- Developed executive programs on analytics, AI, and data-driven decision making

Adjunct Professor | Atlantis University (2018–Present), Online - USA

- Taught graduate-level courses in AI, Machine Learning, and cloud analytics

- Supervised capstone projects in data science and AI engineering

Data Analyst Trainer Consultant | McKesson (2021–2022), Remote - USA

- Migrated SAS workloads to AWS Athena using SQL and Python automation
- Reduced query runtime from 10 hours to 2 minutes
- Enabled scalable cloud-based analytics pipelines

Senior Data Analyst | KEMET Electronics (2018–2019), Florida, USA

- Built Machine Learning models for customer segmentation, pricing, and forecasting
- Analyzed 180K+ customers using clustering and association techniques
- Developed executive dashboards using Power BI

Adjunct Professor | Universidad Panamericana (2008-Present), Online, Mexico

- Taught undergraduate and graduate courses on Facilities Design and Optimization with software SIMIO and AI.
- Delivered courses on probabilistic methods, Six-Sigma implementation, and advanced discrete systems simulation with SIMIO and ARENA.

Management & Analytics Consultant (2008–2017), Mexico City and Latin America

- Delivered analytics solutions for global clients including Colgate, Unilever, Daimler
- Provided consultancy using JICA Methodology (Accredited) and Six-Sigma.

Chief Operations Manager | TMM Logistics (2000–2002). Mexico City, Mexico

- Scaled revenue from \$600K to \$3M within 2 years
- Managed Rail Car maintenance operations, logistics, and P&L performance

EDUCATION

M.S. Operations Research & Management Science – University of Warwick

B.S. Mechanical Engineering & Management – Tecnológico de Monterrey

Diploma – AI & Machine Learning – University of Yucatan, Faculty of Mathematics

SELECTED ACHIEVEMENTS

- Reduced enterprise query runtime by >99% (10h → 2min)
- Designed AI training programs enabling career transitions into AI roles
- Delivered analytics solutions across 30+ organizations

ADDITIONAL

Languages: English (Fluent), Spanish (Fluent), French (Intermediate)
